

# PHARMACEUTICAL PRODUCT LINE CARD

---

## PROVIDING PHARMACEUTICAL SYSTEM SOLUTIONS

Chemroy is a distributor of GMP compliant excipients providing renowned quality and service to the Canadian pharmaceutical industry. Our portfolio includes direct compression, wet/dry granulation binders, co-processed, filler/binder, coating ingredients, controlled release and hardness improvement excipients. Our products are manufactured by world-class suppliers and supported with technical and formulation development.

The majority of raw materials in our portfolio meet all the global pharmacopeia standards to allow for complete global production coverage. We understand each new project can have its own formulation obstacles, we offer support and solutions to guide you towards your product performance goals.

*Let us know your formulation needs and we can provide you a potential solution.*

# THE DOW CHEMICAL COMPANY

## METHOCEL™ Premium Low Viscosity MC, HPMC

- Wet/Dry binders for granulation
- Tablet coating
- Viscosity builder for liquids

## MEGGLE EXCIPIENTS & TECHNOLOGY

### Monohydrate and Anhydrous Lactose

- Direct compression, granulation, powder preparations and dry powder inhale grades
- Co-processed material for extended release products, excellent flowability
- North American and European produced material

## NISSO AMERICA INC.

### HPC - Hydroxypropyl Cellulose

- Direct Compression Grades
- Very Low Viscosity Grades for binders and coatings
- High Viscosity grades for controlled release applications
- Excellent Addition for Hardness Improvement / friability

### HPC-SSL Super Fine Powder Grade

- For roller compaction / dry blending
- Assists with capping issues

## DUPONT NUTRITION AND HEALTH

### DuPont™ Danisco® XIVIA™ C Xylitol

- Product complies with USP/NF, FCC and European Pharmacopeia monographs for Xylitol.
- Naturally occurring sweetener with all the taste and sweetness but only half the calories of sugar
- Protects teeth from cavities, leaves no aftertaste and enhances fruit/mint flavours

### DuPont™ Danisco® Litesse® Powder Polydextrose

- Low calorie, low glycemic, specialty carbohydrate with prebiotic properties. It is widely recognized as a fiber.
- Benefits include Low/no/reduced sugar, low/reduced calorie, fiber enrichment, prebiotic, low glycemic, Maillard browning

## FUJI CHEMICAL INDUSTRIES CO., LTD.

### Fujicalin®

- Unique form of spray dried dibasic calcium phosphate anhydrous
- Promotes rapid disintegration and high direct compressibility
- Probiotic problem solver – significantly improves survivability during tableting & stability during storage

### F-MELT®

- Fast oral dissolve systems
- Oral disintegration time less than 30 seconds
- High API loading achievable

## BENEO-PALATINIT

### GalenIQ™

- Isomalt Based Filler/Binder Excipient, Non Animal Origin and ½ the Sweetness of Sucralose
- Very Low Hygroscopicity, Low Compressive Force for Tablet Production- Direct Compression, Wet granulation, Capsule Filling, Pan Coating, Starting Pellet grades
